The rhetorical triangle worksheet questions printable

Classroom Activity Five Rhetorical Devices Begin class by asking students what is the most famous speech ever given and justify their answers. Classroom Activity Six Rhetorical Devices in Speeches Have students look at the selection of "I Have a Dream" on their Rhetorical Devices note sheet. Consider the difference between: Essay for college application Letter to a prospective employer Letter to a newspaper about a newly proposed policy by an elected official Questions to consider: What does the audience know about the subject? Who is the Audience? There is a space to take notes on the front of the Rhetorical Triangle and Rhetorical Appeals Worksheet. They should finish by reflecting on how these devices helped make the speech more memorable. For example, if they print workbooks or other types of reading materials for educators, homeschooling parents or parents who participate in summer bridge learning programs, you could find award certificates to print and other free worksheets to support your curriculum on these websites. Geography Germany Japan South America Finding free printable worksheets is an excellent way for teachers and homeschooling parents to save on their budgets. What is their attitude toward it? There is a question about rhetorical device after the speech. We've provided copies of speeches by Sotomayor, Reagan and Nehru, but this activity would work well with any speech. Each student should have three pencils, one each of blue, green and red. After the five minutes, use a random calling strategy to call on students. If you refine your search to include a specific type of worksheet (like learning to print the alphabet), your search results will produce free worksheets specifically for that task. Ask what might qualify a person to be pictured on the door of the National Academy of Science. Ask students who they think he is. Define Persuasion as a class. Once students have put together all of the puzzle pieces, they should go around the room and copy down the definitions and examples on their note sheet. Many of these sites are age specific, but there are others that offer materials for children of all ages. What job might he have? What Methods is the Speaker employing to Persuade? Review the following as a class: The interaction between message (subject), speaker (communicator, writer) and audience (listener, reader). Lucy Stone, "A Disappointed Woman," October 17, 1855 Using random calling strategies, ask students to identify which rhetorical appeal the speaker employs, as well as hypothesize why the speaker might use that strategy. Pass out the copies of a speech. Use these printables as study aids, pop quizzes or launching points for discussions about the various states and countries included here. Add these free printable geography worksheets to your homeschool day to reinforce geography skills and for variety and fun. You could even print some of them in different colors to make it easier for students to find the matches. Each link leads you to a page featuring general background about the subject, whether it be countries like Germany and Japan, or states like Alaska and Nevada. You can also refine your search so it includes age, grade level and subject. Tell students that this is the picture of the door of the National Academy of Sciences, which is a society of scientists that was founded by an Act of Congress and signed into existence by President Abraham Lincoln in 1863. After copying down all the definitions and examples, students should come up with their own examples. Give each student one or two Rhetorical Device puzzle pieces. Here are a couple recommended resources: Option Three (TV Homework): Have students take home the worksheet and fill it out after watching several commercials on TV that night. Eventually someone will say "I Have a Dream." Make sure you address why they think it's so famous. Option Two (Teacher-Curated): Print out copies of the 10 advertisements, from which students can choose five to analyze. You can choose a set of ads to focus on a particular time period or issue. They should share one example they found. This reflection can be done in a Socratic Seminar. Tell them that they will be learning about Aristotle's theories of persuasion today. Classroom Activity Four The Rhetorical Triangle and Ethos, Pathos and Logos in Speeches On the board, display the following selections from famous historical speeches: But I am free from American slavery, after wearing the galling chains on my limbs 53 years, nine of which it has been my unhappy lot to be the slave of Henry Clay. After students have inferred what kind of person Aristotle was and how long ago he lived (more than 2000 years ago), let them know that he is still considered one of the leading scholars of persuasion. Often assume a persona: the character that the speaker/writer creates, which depends on the context, purpose, subject and audience: Poet Comedian Scholar Expert or novice Critic Concerned citizen The Audience (listener/reader). Each audience requires the writer/speaker to use different information to present their argument effectively. Is there common ground between the audience and speaker's views on the message? MORE FROM QUESTIONSANSWERED.NET Show students the picture of Aristotle linked above, covering Aristotle's name. These theories include the Rhetorical Triangle and the Rhetorical Appeals of Ethos, Pathos and Logos. You could also have students work in groups and assign different parts of the speech to different students. Be sure you're looking in the right place when you're searching for free-to-print worksheets to ensure they're age appropriate. Look at Educational Websites and Blogs There are a broad range of educational websites and blogs catering to teachers, homeschooling parents and parents who want to help their children with advancement or overcoming struggles. Chief Joseph, "I Will I Fight No More Forever," October 5, 1877 There was but one college in the world where women were admitted, and that was in Brazil. It's also a great way for parents to get in extra practice with their children over the summer, or when they're struggling. That question is for Lesson Activity Six. After students have marked up their speeches, have them pick three examples and complete the Effect Worksheet. Give students about five minutes to find as many as they can. Ask students how these devices helped make this speech memorable. Students will need to work with them again and again to be become masters in the Rhetorical Process. The speaker is the person/company who created the text. Tell students that rhetorical devices help make a speech memorable and Martin Luther King, Jr., was a master at using them in his speeches. Many of these blogs and websites cater to children of all ages, but some of them are age specific. They should read through their speech (either in small groups or independently) and mark examples of the speaker/writer ethos (green), logos (blue) and pathos (red). Geography worksheets can be a valuable resource for teachers and students looking for activities and information related to both U.S. states and foreign countries. Here are ways to find printable worksheets for kids Parenting Blogs and Websites Visiting parenting blogs and websites offers you a variety of opportunities for finding free printable worksheets for kids. They could also combine the different definitions from each group to create a class definition. Lewis Richardson, "My Grave Shall Be Made in Free Soil," March 13, 1846 It is cold, and we have no blankets; the little children are freezing to death. His book, Rhetoric, is still taught in colleges around the world to teach students how to be persuasive. More than 500 members of the Academy have been awarded Nobel Prizes. It is very important that you cut up each page into three parts. Option One (Student-Directed): Have a stack of magazines for students to look through and fill out the chart after choosing five advertisements. Under some circumstances, teachers will also operate individual webpages that offer free printable worksheets to help their students engage in fun activities when they're not in the classroom, or so they can continue learning throughout the summer. What is the Desired Result or Action to be Taken? Make sure you define pathos (appeal to emotion), logos (appeal to logic) and ethos (appeal to credibility) to students before each commercial. Classroom Activity Three The Rhetorical Triangle and Ethos, Pathos and Logos in Groups Have students look at five different advertisements and fill out the persuasion chart included in the Rhetorical Triangle and Rhetorical Appeals Worksheet. Classroom Activity Two The Rhetorical Triangle and Ethos, Pathos and Logos as a Class Pass out The Rhetorical Triangle and Rhetorical Appeals worksheet. If your school doesn't have this information, search other school websites to see what they're offering. Use a Traditional Search Engine When you input phases such as "free printable worksheets" or something similar into the search bar of your favorite search engine, you'll receive results directing you to a broad range of sites offering printables for free. You'll find worksheets that include ABC letters to print for free, as well as math sheets to print out. You should decide on which approach works best for your class, considering time constraints. Explain to students: To understand how speeches or advertisements persuade, you should consider five questions: Who is the Speaker? They might also provide free coloring pages, puzzles and other fun activities. Don't Forget Your School! Sometimes a school website will post a blog or feature information on their library's website that includes free printable worksheets. Make sure you cut them differently so only the correct piece fits with each term. Make sure all examples are captured on the board so that students can copy down any they missed. Option Four (Internet Ads): Have students search for their own commercials on computers in the classroom. They should also discuss whether or not the example uses ethos, pathos or logos. The resources also include crossword puzzles, vocabulary worksheets, alphabet-ordering activities and explanations of geographical terms—such as isthmus, island and archipelago. The Subject (message): The interaction of these elements determines the structure and language of the argument (the text/image that establishes a position) Skilled communicators first choose a subject and then evaluate: what they know about it, what others have said about it, and what evidence/proof will help develop an effective position. The Speaker (communicator/writer): Need to identify the speaker; not as easy as it may sound. This can be turned in for assessment or used to start a class discussion. In addition to offering printable coloring pages, many of these sites present educational printables for free as well. Have them see how many rhetorical elements they can find. These sites also include printables for learning about science, history and reading comprehension. Check Out Book- or Publishing-Related Websites Book- and publishing-related websites will often offer free printable worksheets. You could have students look it up in a dictionary or have them come up with meanings in groups and then vote for the best definition. Note: This lesson is an introduction to the Rhetorical Triangle, Rhetorical Appeals and Rhetorical Devices. Using the speeches that they colored coded in lesson activity four, students should mark any rhetorical elements they find in the speech. Have students watch the following advertisements on YouTube to explore how each part of the rhetorical triangle is used. What is the Message? Upper Elementary and Middle School High School Pathos: Original Goldie Blox Commercial or the Crying Indian (Keep American Clean) Logos: Mac vs PC Commercial on Viruses Ethos: Vitamin Water Commercial with David Ortiz and Brian Urlacher Use of all three methods: Terry Crews Old Spice Power Commercial (16 Hour B.O. Blocker) Use of all three methods: Sarah McLachlan SPCA Commercial Pathos: "Daisy Girl" 1964 Lyndon Johnson Presidential Advertisement Logos: ZzzQuil Commercial Sleep of Vicks Ethos: Discovery Channel "The World is Just Awesome (Boom De Yada) After each commercial have students answer the persuasion questions on the worksheet.
